The Rattlesnake Conservancy

VENOMOUS SNAKES ON THE JOBSITE

SAFETY. PROFESSIONALISM. ETHICS.

November 04, 2026

this certifies that

Robert Robinson

has satisfactorily completed this 8-hour course prescribed by The Rattlesnake Conservancy. This course involves a rigorous classroom curriculum covering native venomous snake species, ecology, anatomy and physiology, venom toxinology, and emergency snakebite management, as well as hands-on practical skills including single hooking, double hooking, and containing venomous snakes. This certification expires two years after the date of issue.
